PROFESSIONAL PROFILE

Results-driven Human Resource Management professional with a Master of Human Resources Management (MHRM) and 10+ years of progressive experience across HR operations, talent management, compliance, document control, and organizational development — including 2 years of Gulf experience in Saudi Arabia. What sets me apart is the rare combination of solid HR foundations with hands-on AI development: I have personally designed, built, and shipped production-grade HR management systems and AI agent suites (NEXA HR, NEXA HR Agents, UAE labour-law automation). I bridge traditional HR expertise with real-world AI implementation, making me uniquely equipped to help forward-thinking organizations modernize their people operations.

✦ MY UNIQUE VALUE TO YOUR ORGANIZATION ✦
HR Expertise + Gulf Experience + Real AI Development = Future-Ready HR Professional

KEY ACHIEVEMENTS

- ▶ Managed complete HR operations — recruitment, onboarding, payroll, attendance, and compliance — for a workforce of 40+ employees at Valitex (Pvt) Ltd.
- ▶ Gained Gulf experience at Al-Aren Construction Company, Saudi Arabia, managing office administration and document control operations.
- ▶ Designed and shipped **NEXA HR**, a production-grade HRMS (payroll, attendance, recruitment, performance) with 116 automated tests passing.
- ▶ Built **NEXA HR Agents**, a suite of 10 AI HR agents (35/35 evaluations passing) automating leave, payroll, onboarding, and analytics workflows.
- ▶ Developed UAE labour-law automation (WPS, gratuity, MOHRE) with 39/39 compliance tests passing.
- ▶ Implemented KPI-based performance management with real-time data dashboards for management visibility.
- ▶ Maintained full regulatory compliance across all HR operations with zero compliance violations.

PROFESSIONAL EXPERIENCE

Founder & HR / Operations Lead

AlSyed Autoparts — Karachi, Pakistan • 2018 – Present

- ▶ Run a real auto-parts business end-to-end while building its technology stack — recruitment, contracts, onboarding, payroll, and exit management.
- ▶ Designed and deployed an AI-powered HR & shop-management platform automating attendance, payroll reporting, and employee records.
- ▶ Use AI analytics to monitor workforce trends, predict attrition risk, and advise on proactive retention strategies.
- ▶ Resolve workplace disputes through structured counseling, mediation, and conflict resolution.

Office Administrator & Document Controller

Al-Aren Construction Company — Jeddah, Saudi Arabia • 2016 – 2018

- ▶ Managed complete office administration and document control operations for a construction company.
- ▶ Maintained organized filing systems for contracts, HR documents, compliance records, and project documentation.
- ▶ Coordinated between departments and handled correspondence, reporting, and administrative support to senior management.
- ▶ Gained valuable Gulf work experience and understanding of multicultural workplace environments.

HR & Operations Manager

AlSyed Autoparts — Karachi, Pakistan • 2015 – 2016

- ▶ Managed full HR operations including staff recruitment, onboarding, attendance, and payroll administration.
- ▶ Developed and enforced HR policies, workplace conduct standards, and compliance documentation.
- ▶ Handled employee grievances and resolved workplace conflicts through structured mediation.

HR & Admin Officer

Valitex (Pvt) Limited — Karachi, Pakistan • 2013 – 2015

- ▶ Managed HR and administrative operations for 40+ employees in a textile manufacturing and export company.
- ▶ Handled the complete recruitment cycle — job posting, screening, interviewing, and onboarding.
- ▶ Administered monthly payroll and ensured compliance with applicable labor laws and HR policies.

SELECTED HR-TECH PROJECTS

NEXA HR — Production HRMS 116 tests passing

Full-stack enterprise HRMS: payroll, attendance, recruitment, performance, assets, and global search, with AI integration.

FastAPI · Next.js 14 · PostgreSQL · Redis · Docker
